

Abdullah Yaseen

Full-Stack Developer · AI / Python Engineer · React · Next.js · Node.js

Pakistan | +92 319 2560463 | abdullahyaseen6500@gmail.com | [LinkedIn](#) | [GitHub](#)

Full-Stack Developer and AI Engineer who turns ideas into fast, reliable products. I build scalable web apps with **React, Next.js, and Node.js** and ship **AI and computer-vision systems in Python** — from real-time detection pipelines to automation tools that save real hours. **30+ projects delivered, consistently 5-star rated, and built for production.**

EXPERIENCE

Full-Stack Developer — Autozy

Dec 2025 – Present

Remote · USA

- Build and maintain scalable full-stack features across frontend and API layers.
- Ship performance-optimized React components and REST endpoints to production.
- Partner with cross-functional teams to improve reliability, UX, and deployment flow.

Python Backend Engineer — Nyuton Enterprises

2024

Backend Systems · APIs

- Designed scalable Python backend services and clean, well-documented REST APIs.
- Optimized server-side performance and data handling for production workloads.

Freelance Full-Stack & AI Automation Specialist

2023

Fiverr (Level Two Seller) · Upwork

- Delivered **30+ international projects** with consistent **5-star client ratings**.
- Built responsive web apps and automated lead-generation, AI chatbots, and business workflows.
- Shipped AI-powered systems across multiple industries, from MVP to deployment.

FEATURED PROJECTS

Web & Product

- Autozy** — Full-stack automotive platform autozy.co
- Raahban** — Ed-tech platform for students raahban.com
- Healthy Start NC** — Healthcare & wellness web platform healthystartnc.com
- Nyuton Enterprises** — Corporate site with backend systems nyutonenterprises.com
- Luxury Watch Store** — Modern e-commerce storefront watches-gray.vercel.app
- Construction Co.** — Responsive business website constructioncompany.netlify.app
- Stepping Stone** — Clean, responsive marketing site steppingstone.netlify.app

AI / Machine Learning & Computer Vision

- Real-Time License Plate Recognition (ALPR)** — Detects and reads plates from live video streams.
- Automatic Product Scanning & Billing System** — Vision-based checkout that scans items and totals automatically.
- Real-Time Multi-Person Tracking System** — Tracks multiple people simultaneously across frames.
- Automatic Vehicle Counting System** — Counts and classifies vehicles in real time.
- Real-Time People Detection** — Low-latency person detection for live camera feeds.

TECHNICAL SKILLS

Frontend React, Next.js, JavaScript (ES6+), HTML, CSS, Tailwind
Backend Node.js, Express.js, Python, FastAPI
Databases PostgreSQL, SQL Server, MongoDB
Cloud & DevOps AWS, Docker, Kubernetes, CI/CD, Linux
AI / ML Machine Learning, Computer Vision, NLP, Automation, Chatbots
APIs & Tools REST APIs, JSON, Webhooks, Git, GitHub, VS Code

EDUCATION & CERTIFICATIONS

B.S. Computer Engineering — COMSATS University, Lahore

Expected Aug 2026

Certifications: AWS Essentials (Udemy) · Python Machine Learning (Udemy) · Python Automation (Coursera) · Introduction to GitHub (Coursera)
